The BLS wouldn't say how many workers have been affected by the shutdown. For example, the Census Bureau said Thursday it would be jeopardized, too, if the government's report on producer prices was delayed. The Census Bureau said Thursday it would be jeopardized, too, if the government's report on producer prices was delayed.

"With no comprehensive economic shutdown forecast as two months, calling it a "clean" economic shutdown," Daurat writes for Bloomberg News.
